

TECH RIDER

ILJA GRZESKOWITZ

Our goal is simple: to be as easy to work with as possible. Ilja is there for you, not the other way around. So you can focus fully on your role as host, here are the key technical requirements at a glance. Ilja arrives on time for the AV check. He brings his presentation on a USB stick, his own laptop including all adapters as backup, and is happy to send you the slide deck in advance if you'd like to integrate them into your overall presentation. For videos, an audio connection is needed.

What we need for a professional performance:

- Printed introduction text for your moderator
- Headset microphone (plus handheld mic for audience interaction)
- Clicker/Presenter (Ilja brings his own, but an on-site backup is helpful)
- Small table on stage for essentials
- Still water on or next to the stage
- Clear stage: Ilja doesn't need a lectern, just as much room to move as possible. Please remove tables, chairs, and other obstacles
- A preview monitor displaying presenter view on stage
- Contact details of the on-site tech person (name + mobile number)

If a recording of the speech is planned: Please clarify camera position and release in advance.

Any questions? Please reach out anytime.

ILJA.
